Nkandla, 12 February 2021

Dear Mr Ludwig Graf, Dr Stephan Bauer and
all who so generously donated via
Bezirkskrankenhaus Landshut

We are very happy that we received R 522,978.00 today. Your kindness is an ongoing source of support to us. We are especially aware that it may not be easy to donate as many people face tough financial times with the current crisis.

Here in Nkandla the community has suffered in the second wave of the Covid-19 pandemic with many families losing members. For them this is not only a time of grief but also of increased struggle as for many the death of family members means the loss of already meagre income.

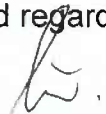

It has also been a difficult time for us to serve the community, in which we have had to find ways to reach those in need without putting staff members or clients at risk of contracting the virus. Our services had to be adjusted in line with changing government regulations as different lockdown levels were imposed.

In these unusual and challenging times your previous donation was a considerable aid to our work. We were able to purchase material from which our Sizanani Huts component made over 670 face masks. These have been essential protection for Sizanani staff and for the children in Sizanani Child and Youth Care Centre, who have to wear the masks when they are at school or the clinics.

Your donation also enabled us to continue holistic family support services. We are currently reaching 903 families in need of assistance with services that target issues relating to health, education, legal support, child protection, psychosocial support, living environment and nutrition.

On behalf of Sizanani staff, the Nardini Sisters and all who benefit from your kindness we thank you very much for your generous donation.

Kind regards

Sr. M. Ellen Lindner
